Calculators

Having a calculator in class is essential for students to succeed in their studies. Whether it's solving complex equations or financial problems in math, analysing data in science, a reliable calculator allows students to work more efficiently and accurately. It helps them focus on understanding concepts rather than getting bogged down by lengthy manual calculations. With the right calculator, students can enhance their problem-solving skills, improve their performance, and gain confidence in their academic abilities. It's not just a tool—it's a vital part of their learning experience.

Students should have their calculator with them every day. They are available for purchase at the front office for \$22.

Year 7 Mathematics

This term, Year 7 students are diving into the world of integers in Mathematics. They are learning to understand and work with both positive and negative numbers, exploring how to add, subtract, multiply, and divide them. Through both visual and written activities, students are building their confidence in solving problems involving integers.

Online mathematics platforms

We are excited to inform parents that students have free access to Mathletics (Years 7 – 12) and Edrolo (Years 7 – 10) through the school. These platforms provide interactive resources, engaging lessons, and practice exercises to help students strengthen their math skills and deepen their understanding of key concepts. Mathletics offers personalized learning in a fun, gamified format, while Edrolo provides in-depth video tutorials and exam preparation support. Both platforms are valuable tools to enhance student learning, and we encourage students to take full advantage of these resources to support their academic success.

Schools Spectacular

Students are starting to rehearse for their auditions for the School Spectacular! This is a fantastic opportunity for students to showcase their talents and be part of an unforgettable performance. Whether you're a singer, dancer, actor, or musician, we encourage all students to prepare and bring their unique skills to the stage. Special shout-out to Chloe, who is auditioning for the role of featured dancer, and John, who is preparing to audition as a featured drummer—both are eager to shine! The School Spectacular is a celebration of creativity, teamwork, and school spirit, and we can't wait to see the incredible performances our students will bring to life. Keep practicing, and good luck to all our auditioning students!

Mrs Kathryn Lane – Head Teacher Mathematics

Process for Ordering School Photos

Gulgong High School

Photos will be taken on:

Wednesday 12th March 2025

SIBLING PHOTOS will be taken before school on Photo Day between 8-9am

PREVIEW BEFORE PURCHASE

Our ordering system is '**Preview before Purchase**'. Our online galleries enable parents to view up to 4 different photographs of their child before placing an order with their own selection of photographs. This means there is **no upfront payments required**.

How to Order - 3 Easy Steps

1. Receive a Note on Photo Day: Your child will receive a note on photo day with their unique code and instructions for registering your contact details.

2. Register Your Email: Follow the instructions on the note to register your contact details.

Returning Customers: If you registered with us last year, you can simply add this year's code to your existing account.

New Customers: If you are new to the school, you can quickly set up your account by providing your contact details.

3. Wait for the Photos: After you've registered, keep an eye out for an email with a link to your child's photograph once the photos are ready (typically 4-6 weeks after photo day). Then you can view and order.

Security of Your Information: Our system uses end-to-end encrypted file transfer to ensure your files are safe from unauthorized access and compliant with privacy protection laws.
